

2nd Workshop Energy Generation of PV Systems (EGPVS-2) Performance Risks and Due Diligence

29th September 2014

10:00	Registration	
10:30	Morning Session	<i>Finance and Due Diligence</i>
	Ralph Gottschalg CREST	Opening of workshop & reasons for underperforming systems in the UK
	Felix Holz Deutsche Bank	Quality requirements from a lenders and an investors point of view
	Jyotirmoy Roy JuWi	System planning and DD from an installer's point of view
	Cliff Hansen SANDIA	Accuracy of performance prediction for PV systems
<i>Panel discussion - linking field performance with financial expectations</i>		
<i>13:00 Lunch</i>		
13:30	Early afternoon	<i>Performance Testing & Modelling</i>
	Jiang Zhu CREST	Micro-Climatic Stresses: the stresses experienced by PV modules in the field
	Tony Sample ESTI	Qualification testing and beyond
	Florian Reil TUV	Certification and Evaluation of Power Modules and Power Plants
15:00	Coffee Break	
15:30	Late afternoon (3 talks)	<i>System Quality Assurance</i>
	Geev Mokryani Paul Westacott Chiara Candelise Bikash C. Pal Imperial College London	Understanding the Potential Impacts of High Penetrations of PV within UK Distribution Networks
	Diane Palmer Elena Koubli CREST	Predicting and Mapping UK PV Performance Variation
<i>Panel discussion - UK based installations - which issues to consider next?</i>		
17:00	Close of meeting
